David Dryden,

The meeting was called to order at 9:15am.

After Introductions of attendees, Mr. Dryden explained the history of collaborative practice legislation for the past decade. The Delaware Association of Chain Drugs Stores (DACDS) handout of Collaborative Practice agreements was presented. Ms. Wenger explained the reasoning for Practice legislation and appreciated the opportunity to have interested parties attendance. Ms. Dogra and Ms. Corbo explained in detail processes of collaborative practice. All activities would be based on approved protocols between the practitioner and the pharmacist. Patients ultimately could opt out on any collaborative practice agreement.

Since this issue is directly related to extending the practice of pharmacy, pharmacist associations will take the lead for this issue in the future. Future meetings will include redefining collaborative practice and any amendments needed to provide such care. Efforts will proceed with similar communications between the pharmacist, medical and industrial groups.

The next meeting will be scheduled at a later date by Ms. Wenger..

There being no further business, the meeting adjourned at 10:07am.

Respectfully submitted,
David W. Dryden, Executive Secretary
Board of Pharmacy
